Feature

Generic genomic feature

- featureId - transcriptId

- featureType - parentIds

contigName - target

name

source

- start

strand

- phase

- exonId

- aliases

- gap

- notes

- ontologyTerms

- circular

- attributes

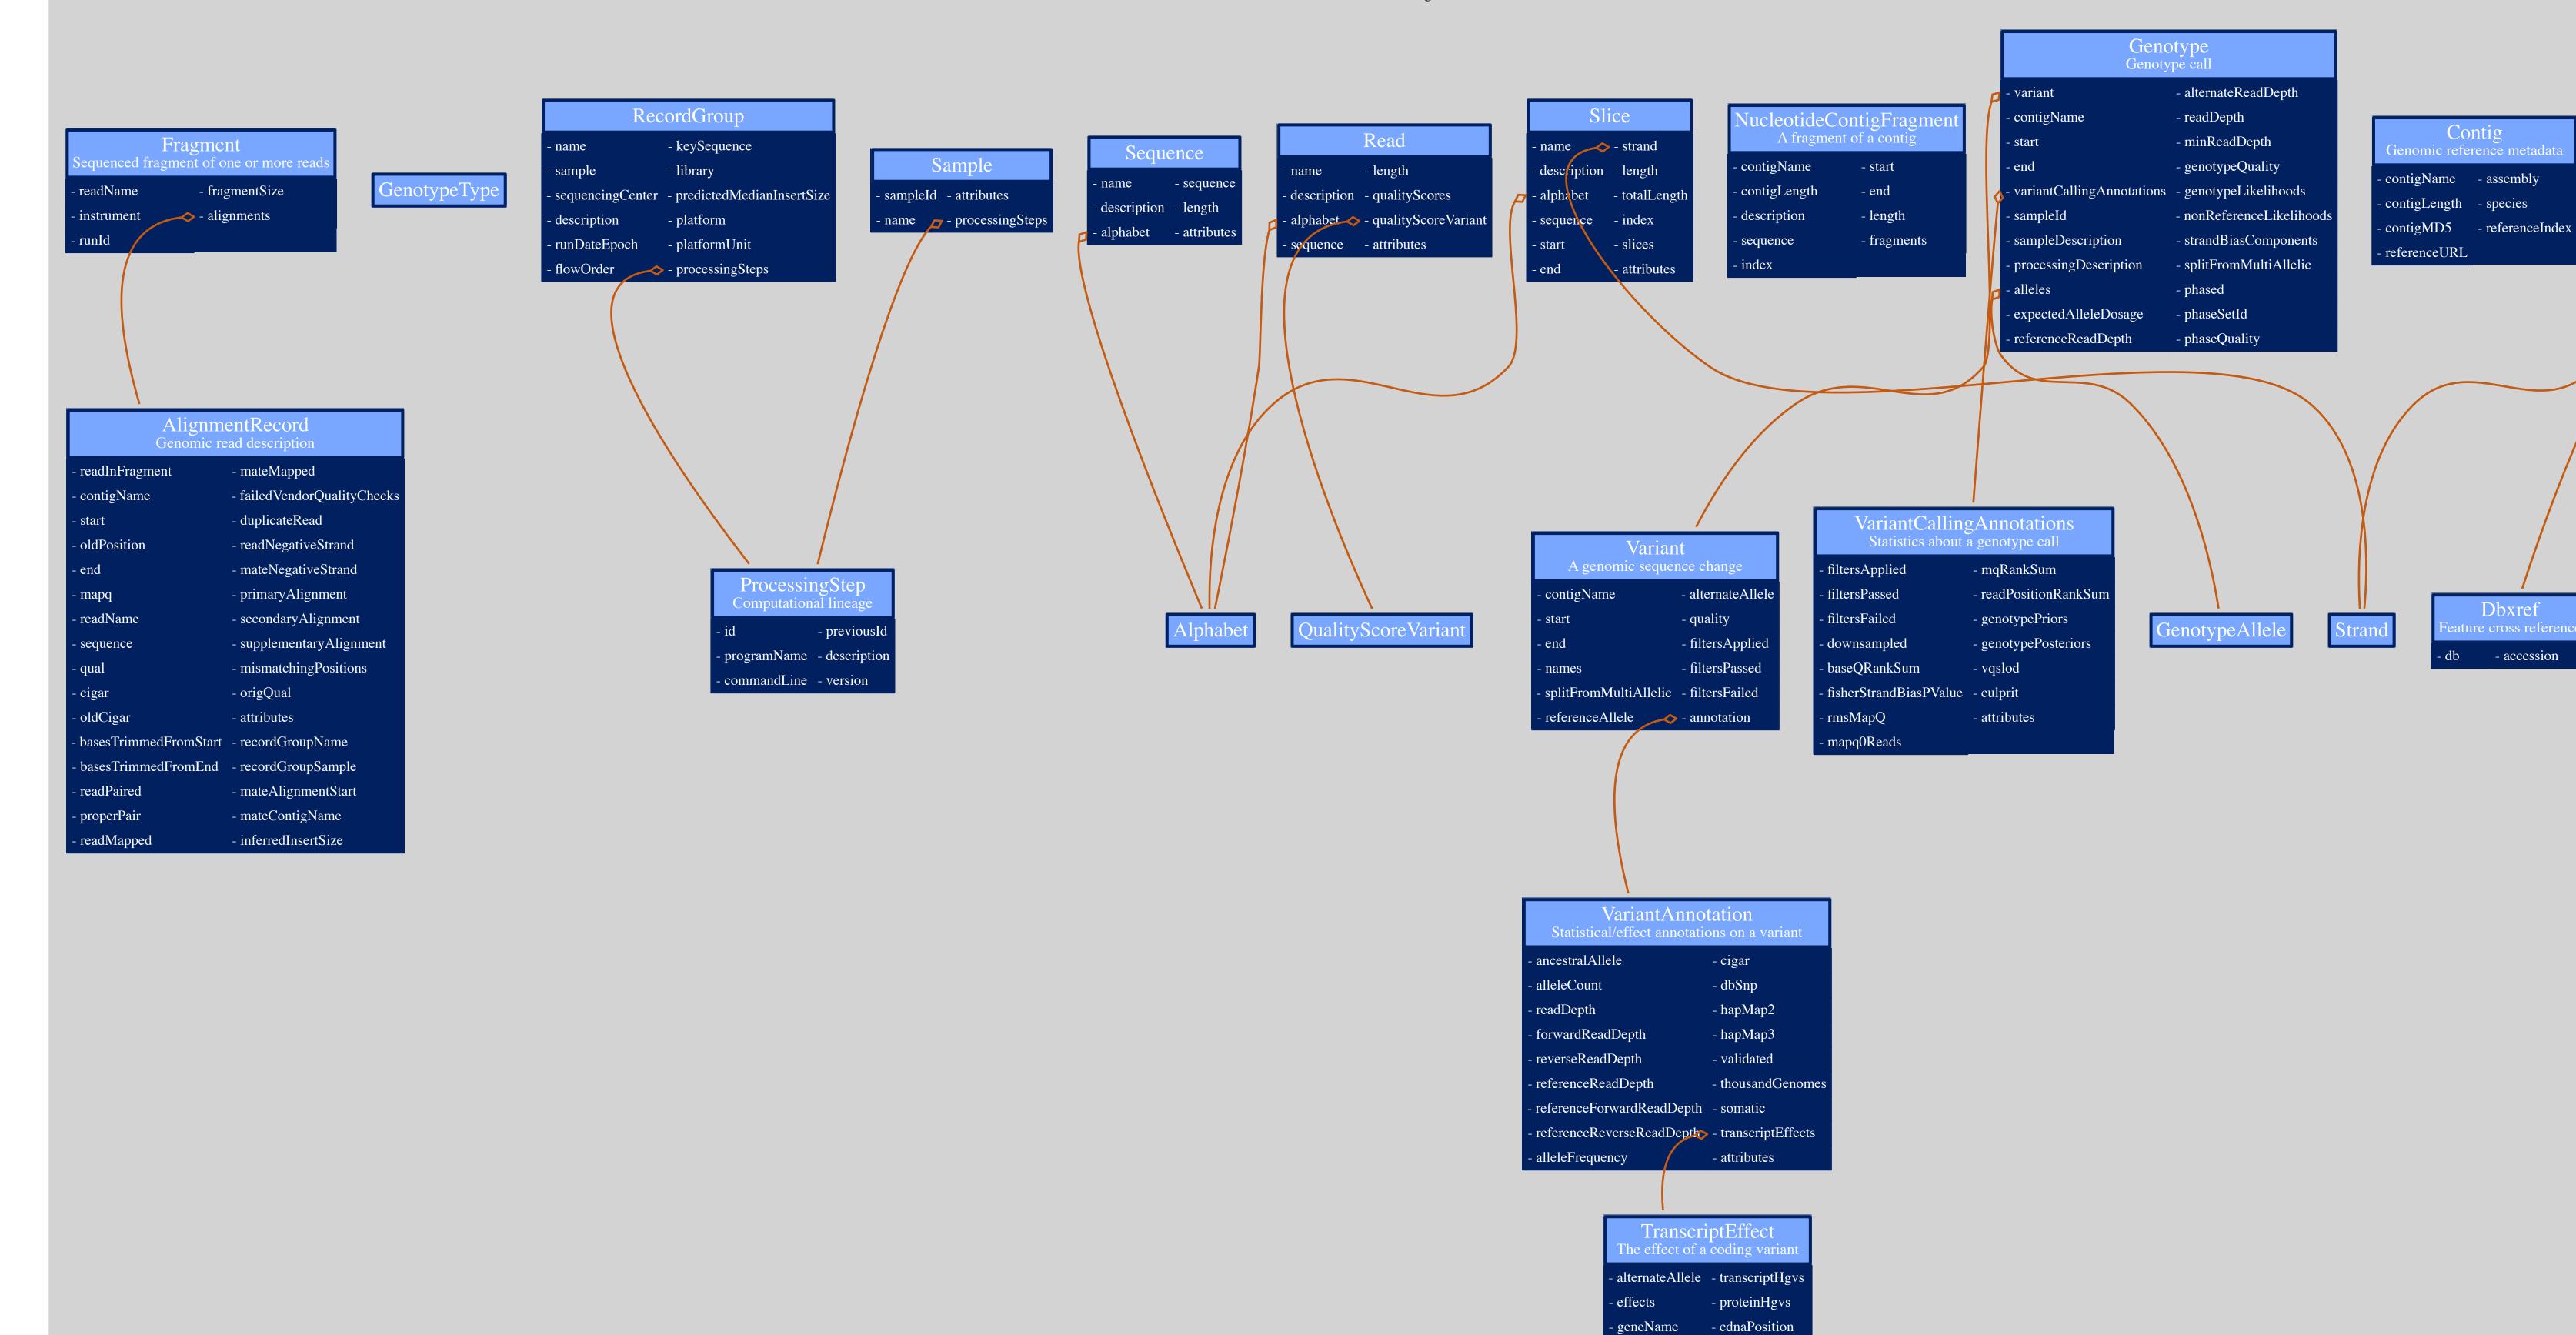

- dbxrefs

OntologyTerm

A term describing a featu

- db - accession

- derivesFrom

- rank - proteinLength
- total - distance
- genomicHgvs - messages

VariantAnnotationMessage

- cdnaLength

cdsPosition

- cdsLength

- proteinPosition

geneId

- featureId

biotype

- featureType
